SECTION 2. CLIENT INFORMATION

Service providers from all Titles should complete this section. Clients reported in this section should include your HIV-infected, HIV-indeterminate, and affected population, whether receiving medical care or social support services. Affected clients include those who are HIV-negative as well as those with unknown HIV status. An affected client must be linked to a client infected with HIV/AIDS. A client who is indeterminate is a child under the age of 2, born to a mother who is HIV-infected, and whose status is not yet definite.

Remember your reporting scope. If you chose reporting scope "01" in Item 6, provide information on all clients who received a service eligible for CARE Act funding. If you chose reporting scope "02" in Item 6, include only clients who received services funded by Titles I, II, III, and/or IV.

SECTION 3. SERVICE INFORMATION

Service providers from all Titles should complete this section. Read the instructions carefully concerning reporting of services offered to HIV-affected clients. If you offered a particular service, check the box in column 2 and list the number of clients and the total number of visits for the appropriate service categories. If you offered a particular service but do not know the number of clients or visits during the reporting period, check the unknown box. Only Title IV funded agencies may report services to affected clients in rows a-i. If you do not receive Title IV funding, do not complete these boxes for affected clients.

SECTION 4. HIV COUNSELING AND TESTING

Title I, II, III, and IV grantees/service providers who selected the eligible reporting scope "01" in Item 6, and provided HIV-antibody counseling and testing during this report period, must report on all items in Section 4. Those who selected the funded reporting scope "02" in Item 6, and provided HIV-antibody counseling and testing, but did not use CARE Act funds for this testing during this report period, should respond to Item 34 and Item 35, then skip to Section 5.

NOTE: Based on Ryan White CARE Act reauthorization, HIV counseling and testing are funded as components of Early Intervention Services for Titles I and II. HIV counseling and testing is a required component of a Title III program. Title IV funds may be used to support these services.

Report only on the number of individuals who received HIV counseling and testing during the reporting period. Unless these individuals received at least one of the services listed in Section 3, they are **NOT** considered clients.

STOP HERE IF YOU DO NOT PROVIDE HEALTH INSURANCE PROGRAM (HIP) SERVICES TO YOUR CLIENTS!

SECTION 7. HEALTH INSURANCE PROGRAM (HIP) INFORMATION

This section should be completed by the state agency and other entities that used CARE Act funds, except funds from ADAP, to pay for or supplement a client's health insurance. This section should **not** be completed by CARE Act grantees providing funding to another HIP, or by service providers who ONLY PROVIDE VOUCHERS FOR HEALTH INSURANCE. Data on Health Insurance Programs funded through ADAP should be reported in the ADAP Quarterly Reports.

A Health Insurance Program is a program authorized and primarily funded under Title I or Title II of the CARE Act that makes premium payments, co-payments, deductibles, or risk pool payments on behalf of a client to maintain his/her health insurance coverage.
